Valsad, GJ

PROFESSIONAL OVERVIEW

Full-Stack Web Developer with expertise in MERN stack and modern web technologies. Proven ability to design, develop, and deploy responsive web applications with secure authentication systems and database-driven solutions. Skilled in frontend UI/UX and backend API development with strong problem-solving capabilities. Passionate about building scalable, user-centric applications.

PROJECTS

Oujat MERN Stack Web Application

Technologies: React.js, JavaScript, Tailwind CSS, Node.js, Express.js, MongoDB

Developed a full-stack MERN web application with authentication, API integration, and database connectivity. Built responsive UI components and implemented CRUD operations with secure backend functionality.

Gym Management Website

Technologies: HTML, CSS, JavaScript, PHP

Developed a dynamic and responsive website for a gym to showcase services, class schedules, trainer profiles, and membership plans. Implemented a clean and modern front-end using HTML/CSS and JavaScript to enhance interactivity. Used PHP for handling form submissions such as contact inquiries or membership sign-ups. This project highlights skills in responsive design, user experience, and full-stack web development.

Food Order Website

Technologies: HTML, CSS, PHP

Designed and developed a responsive web application for booking restaurant tables online. The platform features a user-friendly interface for browsing available time slots, submitting reservations, and receiving confirmation. Utilized HTML/CSS for front-end development and implemented form handling and basic server-side booking logic using PHP. This project showcases core web development skills, form validation, and client-server communication.

Crop Cultivation Chatbot

Technologies: Python, NLP, Machine Learning, Weather APIs

Created an intelligent chatbot designed to assist farmers in selecting optimal crops, fertilizers, and pest control methods. The bot provides guidance based on user-inputted soil types, weather conditions, and geographical location. Integrated external APIs and applied basic natural language processing to simulate interactive and informative conversations.

EXPERIENCE

Web Development Intern

Inngenius Property Management Pvt. Ltd. (Jul 2025)

Technologies: HTML, CSS, JavaScript and PHP

Designed and developed a full-featured website from scratch, handling both frontend and backend development. Created responsive and visually appealing web pages using HTML, CSS and JavaScript. Built backend functionalities using PHP and MySQL, including user forms, data storage, and admin features. Ensured smooth integration between the frontend UI and backend database systems.

Web Development Intern

TechReale (Jan 2026 – Apr 2026)

Technologies: React.js, Tailwind CSS, Node.js, Express.js, MongoDB

Developed a responsive full-stack MERN web application with authentication, API integration, and database connectivity. Built modern UI components using React.js and Tailwind CSS and implemented backend APIs, CRUD operations, and secure data management using Node.js, Express.js, and MongoDB.

EDUCATION

Bachelor of Computer Engineering

GIDC Degree Eng. College

CGPA: 8.49

Sep 2022-May 2026

HSC

Lok Vidhyalaya Untdi

Percentage: 72%

May 2020-Mar 2022

TECHNICAL SKILLS

Front-end

HTML, CSS, JavaScript, React.js, Tailwind CSS

Back-end

PHP, Node.js, Express.js, SQL, MongoDB

Languages

C, Java, Python

Tools

VS Code, Git, Postman, XAMPP

CERTIFICATIONS AND

ACHIEVEMENTS

NPTEL

Programming in Java

Code Unnati- SAP Advance Course

ML, IoT, DL, ABAP on BTP

Code Unnati- SAP

Python Programming, Data Analysis with

Python, AI and SAP Conversational AI

Chatbot

Shronit L & Gargi RL

SQL & Database Assessment

CSR BOX

Summer GTU Internship Program

Artificial Intelligence

ADDITIONAL SKILLS AND

INTERESTS

Technical Skills

Debugging, Testing

Soft Skills

Problem Solving, Team Collaboration,

Communication, Time Management,

Adaptability, Quick Learner
